ORLAND LOUISE CATALA

louise.catala24@gmail.com | 0968 238 4854
277 Sampaguita Street, Nepo Subdivision, Angeles City, Pampanga

PROFESSIONAL SUMMARY

Computer Engineering student with skills in web development, programming, and embedded systems and hardware, plus experience as a freelance PC and laptop cleaner, Jollibee service crew, and on-call truck porter. Seeking an entry-level or internship position where I can apply my technical skills and contribute reliable, hands-on work to the team.

TECHNICAL SKILLS

Working knowledge of Python, HTML/CSS, JavaScript/TypeScript, PHP, React, Node.js, MySQL, Firebase, REST APIs, embedded systems and microcontrollers (ESP32, Arduino,Raspberry Pi), circuit design, KiCad, AutoCAD, Proteus, soldering, Claude ChatGPT, OpenAI Codex, and Claude Code.

Familiar with Git, Docker, Java, and C++

PROJECTS

KAWING – IoT-Integrated Post-Harvest Coordination Platform
Capstone Project
Technologies: *React, TypeScript, HTML/CSS, PHP, MariaDB, REST APIs, ESP32, Arduino IDE, Capacitive Moisture Sensors, Chromebook Laptop, Debian 13, Vite, Node.js/npm*

- Developed a web-based platform connecting rice farmers in Magalang, Pampanga with transportation, mechanical drying, storage, and rice milling services.
- Integrated an ESP32-based grain moisture assessment device to display moisture readings, classifications, and recommended actions.
- Implemented harvest listings, buyer bidding with ranked offers, production loan requests, service-request tracking, and administrative management.
- Converted a Chromebook laptop into a community access kiosk using Debian 13, enabling walk-in farmers to access the KAWING platform.

HealthTrack – Health and Calorie Monitoring System for Rural Pampanga
Academic Project
Technologies: *React 19, TypeScript, HTML/CSS, Tailwind CSS 4, Vite, Node.js, Express.js, Framer Motion, Google Maps API, Lucide React, pnpm*

- Developed a web-based system designed to support health and calorie monitoring for residents in rural Pampanga.
- Designed a touch-oriented interface with a welcome screen and guided user intake.
- Implemented an intake form collecting users' names and addresses for health tracking.
- Provided a Filipino language option to support accessibility for local users.

e-LINGAP – Touch-Enabled Citizen Intake and Welfare Registry
Academic Project
Technologies: *React, TypeScript, Tailwind CSS, Vite, Firebase (Cloud Firestore, Auth, Security Rules), Intel NUC, Capacitive Touchscreen Monitor,*

- Developed an accessible, touch-driven self-service kiosk system designed to streamline DSWD social welfare transactions for solo parents, persons with disabilities (PWDs), and senior citizens.
- Engineered end-to-end digital processing modules for New ID Registration, ID Renewal, Lost/Damaged ID Replacement, Digital Application Forms, and Requirement Document Submissions.
- Implemented real-time data persistence and transaction verification utilizing Firebase Cloud Firestore, reducing manual counter queue times from 15–30 minutes down to under 5 minutes per client

RATHEUSE – Desktop PC Hardware Monitoring Application
Personal Project
Technologies: Python, HTML5, CSS3, JavaScript, psutil, pywebview, pynvml, PyInstaller

- Developed a Python-based desktop application designed to monitor computer hardware utilization and system performance.
- Implemented monitoring features for CPU usage, clock speeds, temperatures, GPU activity, VRAM consumption, and RAM utilization.
- Designed an interactive desktop interface using HTML, CSS, and JavaScript to display hardware statistics and performance indicators.
- Integrated adjustable monitoring intervals and an on-screen overlay for convenient performance tracking and system resource monitoring.

GalonEase – Automated Water Refilling and Gallon Sanitation System
Academic Project
Technologies: *ESP32, Embedded Systems, Sensors, Pumps, React, TypeScript, HTML/CSS, Vite, Node.js*

- Developed an ESP32-based automated system for gallon cleaning and water refilling.
- Implemented automatic gallon detection and automated control of the cleaning, rinsing, and water-refilling processes using sensors, pumps, solenoid valves, and relay-controlled components.
- Designed the system to support standard 18.9-liter (5-gallon) water containers and automatically stop the filling process based on the selected water volume.
- Integrated embedded-system hardware and software controls to improve the consistency and automation of the gallon cleaning and refilling workflow.

WORK EXPERIENCE

Freelance PC and Laptop Cleaner June 2026 – Present

- Provide PC and laptop deep cleaning services to customers in Angeles City.
- Clean internal components, fans, and heatsinks to improve cooling and system performance.
- Communicate with customers, schedule service appointments, and manage daily service operations independently.

Service Crew, Jollibee (Clean Edge Manpower Solution Inc.) May 2024 – November 2025

- Delivered prompt, courteous, and efficient service to ensure customer satisfaction and retention.
- Maintained cleanliness and organization of the dining area, kitchen, and service stations according to company standards.
- Followed structured procedures for order handling, food preparation, and inventory support to improve workflow efficiency.
- Collaborated with team members to keep daily operations smooth and customer experience consistent.

On-Call Extra Porter, RMM Cold Storage Corp. August 2025 – December 2025

- Ensured timely and accurate delivery of products to assigned locations.
- Loaded and unloaded goods safely while maintaining proper handling and organization.
- Kept the truck and storage areas clean and orderly.
- Coordinated with drivers and team members to support efficient delivery operations.

EDUCATION

Bachelor of Science in Computer Engineering 2023 – 2027

Systems Plus College Foundation, Balibago, Angeles City

Senior High School, TVL – ICT 2020 – 2023

Systems Plus College Foundation, Balibago, Angeles City

CORE SKILLS

Computer Literacy, Customer Service, Communication, Active Listening, Leadership, Planning, Problem Solving, Adaptability, Consistency, Ability to Work Independently or in a Team

I certify that the above informations are true and correct to the best of knowledge and beliefs
